Postgraduate

Foreign Service
SGH Warsaw School of Economics

PR & Brand Management
Jagiellonian University

Education

MSc Computer Science · Machine Learning — Jagiellonian University
Economics · Ongoing — University of Warsaw
Executive MBA — AGH University

Executive Summary

Engineering leader across LLM, ML, tooling, backend and infrastructure. CTO with a record of building teams and production systems in diverse environments.

Advisory Work

wincan 10/2022–06/2023
computer vision | mentoring | tech strategy

music.ai 05/2022–08/2022
audio | neural net optimization | CoreML

Research

Biologically-Inspired Spatial Neural Networks
NeurIPS workshops (NeuroAI)

Tech Skills

Programming Languages
Python Go C++ C R SQL

Machine Learning
PyTorch scikit-learn Hugging Face
pandas NumPy spaCy MLflow

Artificial Intelligence
PydanticAI FastMCP Qdrant Codex

Backend
Docker Kubernetes OpenTelemetry
GCP AWS GitHub Actions FastAPI

Languages

English C2 **Polish** native

Experience

Founder — opennudge — 03/2026–Present
- Building a harness to generate RLVR data for improving LLMs' coding
- Validating commercial fit and shifting from build to sales phase

Interim CTO — softwise.ai — 10/2025–03/2026
- Led developers and introduced engineering best practices, e.g. ADRs
- Cut product-core latency over fivefold in 30+ streaming agents
- Owned technical discovery, pre-sales, and key account relationships
- Refocused the product on B2B by removing redundant B2C systems

Founder — opennudge — 03/2024–10/2025
- Created a Python template for SLSA L3 Build, attested SBOMs and CI
- Architected MCP-enabled cross-language linting framework and tools
- Built a ~100-workflow FOSS Python quality and security platform

CTO — inovintell — 04/2022–02/2024
life science AI ML DS DL NLP LLM research leadership
- Co-founded a 30-person life-sciences machine-learning company
- Owned technical roadmap, direction, culture, and best practices
- Built and led 2 teams (research and development) of 10+ engineers
- Translated domain and business requirements into technical tasks
- Designed tools to improve velocity and reliability across teams

Head of Curriculum — AiCore — 11/2020–09/2021
- Led technical delivery of UK government-backed AI upskilling program
- Designed and delivered courses on Python, Linux, ML, DL, and Ops
- Supervised 100+ learners through the curriculum and their projects

Machine Learning Developer — ArtPlanet — 08/2019–06/2020
- Owned the full SDLC, from data science and ML to AWS deployment
- Built a low-maintenance, serverless neural network art tagger

Machine Learning Developer — Codete — 04/2018–10/2018
- Co-created commercial machine-learning courses for O'Reilly

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the European Parliament's and Council of the European Union Regulation on the Protection of Natural Persons as of 27 April 2016, with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (Data Protection Directive)
