Research

Biologically-Inspired Spatial Neural Networks

NeurIPS workshops (NeuroAI)

Languages

Polish native

English C2

French B1

Education

Executive MBA

AGH University

MSc Computer Science

Jagiellonian University

Work

Senior data engineer (external) airbnb 02/2026–Present

- building Airflow data infrastructure for large-scale payments platforms

Interim CTO softwise.ai 10/2025–02/2026

contractor analysis AI LLM programming agents management sales

- created streaming multi-agent (30+ agents) system (5x lower latency)
- led technical sales, pre-sales, and client delivery discussions

Founder opennudge 04/2024–Present

FOSS compliance AI Dev(Sec)Ops programming agents management

- building developer-first tooling that simplifies software delivery

CTO inovintell 04/2022–02/2024

life science AI ML DS DL NLP LLM programming management

- co-founded an AI company in life sciences with internal stakeholders
- led and mentored technical and research teams of 10
- led the development and programmed in multiple areas (see tags)

Independent consultant wincan Concurrent 10h

- guided the development of the computer vision AI algorithms
- mentored the ML team and advised on technical strategy

Independent consultant music.ai Concurrent 20h

- optimized CoreML audio neural networks for mobile deployment

Head of curriculum AiCore 11/2020–09/2021

- designed and delivered courses in Python, Linux, ML, DL, and Ops
- repeatedly rated the company's top instructor by students
- oversaw technical development and projects involving ~100 people

Machine learning developer ArtPlanet 08/2019–06/2020

- built a low-maintenance, cost-efficient neural-network art tagger
- owned the full SDLC, from data science and ML to AWS deployment

Machine learning developer Codete 04/2018–10/2018

- built and validated a PoC Keras-to-TensorFlow model converter
