Executive Summary

Engineering leader across LLM, ML, tooling, backend and infrastructure. Ex-CTO with a record of building teams and production systems in diverse environments.

Education

Executive MBA

 AGH University

MSc Computer Science

 Jagiellonian University

Advisory Work

 wincan  10/2022–06/2023
computer vision, mentoring, tech strategy

 music.ai  05/2022–08/2022
CoreML audio neural network optimization

Postgraduate

PR & Brand Management
 Jagiellonian University

Research

Biologically-Inspired Spatial
Neural Networks
 NeurIPS workshops (NeuroAI)

Tech Skills

Languages

Python

Go

C++

C

R

SQL

Machine Learning

PyTorch

scikit-learn

Hugging Face

pandas

NumPy

spaCy

MLflow

Artificial Intelligence

PydanticAI

OpenAI Agents

Qdrant

FastMCP

Codex

Claude Code

Infrastructure

GCP

AWS

Docker

Kubernetes

GitHub Actions

OpenTelemetry

SLSA

Languages

Polish native
English C2
French B1

Experience

Senior data engineer (external)

  airbnb

 02/2026–Present

- building experimentation flows for large-scale payments platforms

Interim CTO

  softwise.ai

 10/2025–02/2026

- led 5 devs in 10 people org and introduced best practices (e.g. ADRs)
- built a streaming 30+ agent system that reduced latency by 5x
- owned technical discovery, scoping, pre-sales, and direct client contact

Founder

  opennudge

 04/2024–Present

- building dev-first tooling accelerating secure software creation
- creating harnesses and guardrails that improve agents reliability
- improving current supply-chain security practices in Python ecosystem

CTO

  inovintell

 04/2022–02/2024

life science

AI

ML

DS

DL

NLP

LLM

research

leadership

- co-founded an AI life-science company of 30 people with stakeholders
- led and mentored 2 teams (research and dev) of +10 people total
- translated domain and business requirements into technical roadmap
- designed tooling improving team’s development velocity and reliability
- owned tech direction, culture, practices and day-to-day communication

Head of curriculum

  AiCore

 11/2020–09/2021

- led technical delivery of UK government-backed AI upskilling program
- designed and delivered courses on Python, Linux, ML, DL, and Ops
- oversaw technical development and projects involving over 100 people

Machine learning developer

  ArtPlanet

 08/2019–06/2020

- built a low-maintenance, cost-efficient neural-network art tagger
- owned the full SDLC, from data science and ML to AWS deployment

Machine learning developer

  Codete

 04/2018–10/2018

- co-created company’s commercial machine learning O’Reilly training
- built and validated a PoC Keras-to-TensorFlow model converter
- created hacking and numerical challenges for potential employees

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the European Parliament's and Council of the European Union Regulation on the Protection of Natural Persons as of 27 April 2016, with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (Data Protection Directive)
